Impulse Seal System linear Joining Sealer

for roll-material Model **QH series**

Model QH-1500-10x2

In the past way for linear joining of roll material such as plastic sheet, non-woven fabric have been carried out by sewing / gluing / etc. However, this kind of work resultingly weaken the material joining portion and it impossible to bear during processing the material, this model have been developed to provide to solve such problem.

Effective length on this series are from 750mm to 2000mm can be manufactured and furthermore seal-cut or seal only can be chosen.

Other require for sealing width, length, numbers to be consulting, please ask us.

## Specifications

\*Subjects may changes without notes.

Model	QH 1500-10x2	QH 1100-10x2	QH 2000-10
Power input	AC 3P 200V 50/60 Hz		AC 1P 200V 50/60Hz
Power consumption	20.4 KVA	16 KVA	10 KVA
Effective width	1500mm	1100mm	2000mm
Heater wire (Ribbon)	10mm x 2	10 mm x 2	10mm x 1
Pressure (Maximum)	1000 Kgs	1000 Kgs	1100 Kgs
Weight	Abt. 450 Kgs	Abt. 350 Kgs.	Abt. 550 Kgs.
