

# CONTINUOUS HOT PLATE WELDING MACHINE LHP-PP1-N

## Post Type

### Specifications

Model		LHP-PP1-N
Input Power		AC1P 200-220V ±10% 50/60Hz
Power Consumption		Approx. 1.0 kVA
Heating	Pressure	Pneumatic System: Adjustable
	Heating Method	Heater (Upper): Max. 280°C / Heater (Lower): Max. 190°C Full Automatic Temperature Controller
Cooling	Pressure	Pneumatic System: Adjustable
	Cooling Method	Aluminum Plate & Water Cooling System (Chiller is not equipped)
Welding Width		15 mm
Feed Speed		Max. 5 m / min
Dimension (WxDxH)		1,100×500×1,500 mm
Net Weight		Approx. 85 kgs.
*Option		Tape Stand
*Required Equipment		Air Compressor (0.2kW or more), Water Chiller
